February	90	10	English through environment, family activity and environment
March	10	90	Planning time, short activities with school groups
April	20	80*	Holiday allowance must be taken during Thai New Year* Camps for students from Thai schools
May	10	90	Planning time, short activities with school groups
June	75	25	Activity Camps
July	100	0	Activity Camps, Family Camps

It is difficult to explain a typical week, but the summary above is typical of our year.

Most camps are residential lasting a week to three weeks at a time. Some campers come for day camps, arriving after breakfast and leaving after dinner. Camp staff also work with students in the international school which shares our campus. You may lead a 90 minute activity within their school day on campus.

Staff should discourage guests from June until end of August time since it is not possible to give time off in this time.

Holiday is taken when the office is closed at western and Thai New year. Just as with a school, we all take holiday at the same time, using up our annual leave so that when our customers are working and want to contact us we are also working and available to plan with them.

We work with children from international schools mostly in SE Asia, groups of young people from China, students from Thai schools, and family groups. At different times of the year we have different requests.
